High Power and Speed – The innovative hair removal solution for all skin tones, sensitive and aged skin.

Active Lasers **SPT** – (Speed Pulse Technology) is the winning acquisition for aesthetics centers around the world.

Spirit's **SPT** technology uses high quality laser diodes to deliver high intensity short pulses for noticeable results from the first treatment.

Spirit

The perfect solution for laser hair removal

Cold Touch Hand Piece
Continuous contact cooling for virtually pain-free treatments.

Fast Treatments
With up to 10 pulses per second, treatment time is significantly reduced.

Superior Safety Standards
Spirit's hand piece is activated only while in direct skin contact.

Three Wavelengths
755nm, 810nm and 1064nm enabling treatment for all skin tones and hair colors.

Fast ROI
Exceptional technology and diode precision offset the cost via rapid revenue

Cooling System
A powerful cooling system allows operation at any room temperature.

Technical Specification

Cooling System	Maintains optimum temperature regardless of room temperature
Hand Piece	Provides a cooling sensation for a virtually painless treatment
Pulses per second	1-10 Pulses Per Second
Combined Wavelengths	755nm, 810nm, 1064nm
Output Power	2400 Watt
Treatment area	(20x14mm) 2.8cm ²
Built in safety	Hand piece activated by direct skin touch
Weight	42 Kg
Size	44cm x 45cm x 128cm
Interface	Computer touch screen

Hand Piece

The ergonomic design enables easy hair removal including in difficult to reach, intimate and sensitive areas.

Ability to customize treatments for superb results. The SPT laser targets the dermal papilla, inhibiting hair growth from the very first treatment.

Spirit's hand piece is equipped with a built-in safety mechanism activating only while the hand piece is in direct skin contact.

Outstanding results From the first treatment

Before Treatment

After Treatment

A multifunctional system providing an extensive range of aesthetic treatments

Active's **Extra 818m** system has been clinically proven to treat damaged skin, rejuvenate aging skin and **provide gold standard** hair removal treatments.

Using Active's highly effective IPL technology - **GEM-PL** (geometrical energy management) and ergonomic applicators, **Extra 818m** has the ability to treat a wide variety of non-invasive aesthetic procedures, including Pigmentation, Acne treatment, Hair Removal, Skin rejuvenation, and Wrinkle Reduction. Sessions are convenient, fast and comfortable with visible results after the first treatment.

Technical Specification

Hand piece	Universal Or Facial
Wavelength	420 - 1100 nm
Speed	0.5 - 2 pulses per second
Output Power	4000 Watt
Treatment Area	50 X 15 mm OR 30 X 15 mm
Life Span	200,000 Pulses
Weight	23 Kg
Size	44cm X 42cm X 28cm

Hand piece

Hand piece (possible to choose between the two available options)

- **Universal** (50 x 15 mm) for hair removal treatments, safe and comfortable for all skin and hair types.
- **Facial** (30 x 15 mm) enables tailored and precise energy delivery for advanced anti-aging treatments.

Extra - 818m

Hair Removal and Aesthetic Treatments

Portable Solution
Tabletop device, adaptable to any clinic and easy to move around.

Fast Treatments
Fast and customizable treatments for each client.

User Friendly Interface
Intuitive interface to ensure fast and easy treatments.

Optimal Wavelength
420 – 1100nm for efficient and visible results for all skin tones and hair types.

Quick ROI
Precise technology and a wide range of treatments offset the cost via quick revenue.

Treatment Results
Remarkable results within one treatment.

Body Shape RF is a highly advanced medical – aesthetic solution that effectively resolves challenging face and body aesthetic needs. Our clinically proven treatments are comfortable without any downtime, using RF Technology which is safe for all skin types.

REAL-TIME THERMAL FEEDBACK

Body Shape RF applicators are equipped with integrated sensors that provide real-time thermal feedback to allow easy, immediate, and continuous monitoring of skin temperature profile.

SPIKE ELIMINATION SYSTEM

RF energy is transmitted only while all electrodes are in direct skin contact, to avoid painful spikes and enhance patient safety and comfort.

Body Shape RF

Anti Aging and Body Contouring

- 

Fractional Hand piece
Precise targeting for collagen production and elastin fiber strengthening.
- 

Fast Treatments
Fast and customizable treatments for each client.
- 

Superior Safety Standards
Anti-spike technology to ensure pleasurable treatment and to avoid unpleasant spikes.
- 

Treatment Frequency
Effective and accurate treatments with **6.78 MHz** frequency.
- 

Real-time Thermal Feedback
Integrated sensors that provide real-time thermal feedback.
- 

Maintenance
Hand pieces – No need to replace or top up body/facial Hand pieces.

Advanced Anti-Aging and Body Contouring Treatments

-  Fractional Skin Rejuvenation
-  Body Contouring
-  Skin Lifting
-  Cellulite Reduction

Technical Specification

Frequency	6.78 MHZ
Hand Pieces	Facial, Body and Fractional treatment hand pieces
Monitoring	Skin Temperature monitored via laser sensor
Mains Input	230 Vac 50 Hz 115 Vac 60 Hz
Output Power	250 Wp.
Fractional Penetration Depth	0.5mm - 4.5mm
RF Penetration Depth	7 - 16 mm
Size	44cm x 45cm x 100cm
Weight	18 kg
Maximum Power Consumption	400 VA

Hand pieces

- Fractional:** Deep penetration, up to the hypodermis layer, for collagen production and elastin fiber strengthening.
- Face Applicator:** BI-Polar Hand piece for aesthetic firming and rejuvenation treatment at 42°C or less.
- Body Applicator:** Quarto Polar hand piece for deep skin repair and firming up to 50°C.

WHY ACTIVE?

Our innovative products will help you grow your customer's base by providing solutions in line with the needs of the modern aesthetic clients.
